Brand image wardah products affect purchasing decisions on university students faculty of economics abdurachman saleh situbondo, (2). Brand image wardah products affect the loyalty of students of university economics faculty abdurachman saleh situbondo

Keywords: brand image, Kosmetik wardah, purchasing decisions and loyalty

INTRODUCTION
University Abdurachman Saleh Situbondo is a university consisting of various faculty one of them is the faculty of economics majoring in management with the total number of students as much as 1,217 students see the number of students is the most students with female gender so it is possible if the students of the faculty of economics management department University abdurachman Saleh Situbondoespecially with female gender in everyday life especially in fulfilling her needs can not be separated from the purchase of make-up or cosmetics, because it becomes a requirement if woman really need attractive appearance in its activities everyday. Cosmetics is a unique product because in addition to this product has ability to meet women's basic beauty needs as well as often a means for consumers to clarify the identity himself socially in the eyes of society. Cosmetics are actually at risk use to consider considering the chemical content does not always give the same effect to every consumer. However how real consumer judgment would be cosmetic products so the product is considered to have the ability to meet the needs of consumers to be beautiful. One of the cosmetics that recently became a trend in the mass media as well as among the students of the faculty of economics management department of the University of abdurachman Saleh Situbondo is the brand image of make up wardah products because in addition to the affordable pricebrand make up / cosmetic wardah products can be easily because Wardah counter counters are often encountered in supermarkets or in cosmetics stores. Various theories of customer behavior and marketing state that human needs are not only influenced by motivation but also things such as external (cultural, social and economic). Buy and option decisions products are often influenced by psychological impulses. Not infrequently we meet consumers decide to vote and consume certain products in the framework of self-actualization as well
as means of entry into the community that he hopes, for example in consumption cosmetics. The product is not designed to meet the needs functional but also satisfy social and psychological needs. Quality is the most important concept in creating a product. Product the quality is the product received by the customer according to needs and desires of the customer. According to Kotler (2009: 54) the product is everything that can be offered into the market to be noticed, owned, used or consumed so as to satisfy his wishes or needs. Therefore the company must understand what it is needs and wants of consumers. According to Kotler and Armstrong (2011: 258): that the quality of a product is a judgmentable ability of a the product in performing its functions, which is a composite of durability, reliability, accuracy, ease of maintenance and attributes other than a product. In terms of marketers quality should be measured from the angle the buyer's eyesight and responses to the quality itself. In this case personal taste greatly affects. Therefore it is generally within managing product quality, should be in accordance with the intended use.

A. Formulation of the problem based description on background back then could put forward problem as following:
   1. Does the brand image wardah products affect purchasing decisions on university students of abdurachman saleh faculty of economics situbondo?
   2. Does the brand image wardah products affect the loyalty of the students of university economics faculty abdurachman saleh situbondo?

B. Research purposes
   1. Men getahui and analyze the influence of brand image wardah products to purchase decisions on university students faculty of economics abdurachman saleh situbondo.
   2. Men getahui and analyze the influence of brand image wardah products on loyalty to students of university economics faculty abdurachman saleh situbondo.

RESEARCH METHODS
Technique of data collecting technique used by compiler in making this report is interview method, field observation and documentation, that is by plunge directly in the field where research. The method used in this research is using qualitative research which the respondent is the university faculty of economics student of abdurachman saleh situbondo who have made the decision to buy the product brand image make up wardah product.
